

CH Courageous Admiral 48885

CH Courageous Admiral was sired by the Wing Commander son, Wing's Fleet Admiral, and out of Indiana JEM BHF. He had no white markings, but his coppery red chestnut color made him a standout. His name was derived from that of his sire and his dam's grandsire, Captain Courageous. Just like his own grandsire Wing Commander, Courageous Admiral was bred and owned his entire lifetime by a single family. He was the pride and joy of WJ & Pearl Cleland.

The Clelands only bred a few mares each year which they kept at their small farm in WaKeeny Kansas, population 2900. They had their mare Indiana JEM hauled from WaKeeny to Lee's Summit Missouri to be bred to Wing's Fleet Admiral, and for the cost of a \$300 stud fee, were rewarded with a wonderful stud colt in 1966. It was the first of only five foal crops for Wing's Fleet Admiral.

Trained by Charlie Judd from Grandview, Missouri, Courageous Admiral spent most of his career showing in the southern states. He competed at the Texas and Missouri State Fairs, Houston, Dallas, Tulsa, and the American Royal. He even showed in his home state of Kansas at the Salina show. In 1974, he made a trip to the Kentucky State Fair and was third in the Stallion Stake behind CH Will Shriver and CH Superior Odds. Showing back in the Championship, he was again third behind WGC Sure Fire and CH Giddy-Up-Go. Through the years, he earned his CH status. He was appreciated for his calm disposition and his never quit attitude in the show ring.

CH Courageous Admiral was also used as a breeding stallion, again under the management of his trainer Charlie Judd. His first foal arrived in 1972 and his final foal was born in 1995. Many of his get were show ring stars, and Courageous Admiral can still be found in the pedigrees of numerous Saddlebreds. Some of his standout offspring included:

- WC CH Top Spool, sire of WGC Top of the Mark and WCC CH Lynn Williams
- WC CH Button Bright BHF, dam of WC CH Cagin Martini
- RWGC CH Admiral's Mark
- RWGC CH General Electric
