THE AMERICAN SADDLEBRED

The FIVE GAITED American Saddlebred is a show ring star. The five gaits he performs with style and animation are the walk, trot, canter, and two that the American Saddlebred has the natural ability to learn easily—the "slow gait" and the "rack."

SIDE SADDLE is the way many becoming popular again.

American Saddlebreds make comfortable, attractive and sensible WESTERN PLEASURE horses. They are big enough to carry a western saddle and learn easily to neck rein.

DRAWING an American Saddlebred for show or pleasure is always fun. Pulling cart or his very elegant indeed.

This American Saddlebred JUMPER shows the judges how it's done. He is athletic and alert and is a great performer in the show ring, cross country or on a RAIL.

American Saddlebreds make good FRIENDS too. This horse enjoys being one of the gang.

DRESSAGE comes from a French word meaning training. The basic lessons teach a horse to be balanced, willing, supple and responsive. A DRESSAGE test is a series of precise steps and patterns that demonstrate the training.

IT'S an American Saddlebred's great chance to show his riding ability. See how proud he looks to have his show.

The American Saddlebred BROODMARE keeps a watchful eye on her FOAL. He may be dreaming of what he will grow up to be—FIVE GAITED, DRESSAGE, JUMPER, or someone's special FRIEND.
