

Notice of Conditional Transfers

In accordance with ASHBA Registry Rule V.E.3.:

Provided the requirements of this Section V.E.2. have been met, including payment of all fees and expenses, the Registry may issue a conditional transfer to the current owner of a currently registered American Saddlebred.

Conditional transfers of registered horses are valid for six (6) months; if within that time apparently correct or justified claim is made to challenge the transfer, the conditional transfer will be cancelled. If no apparently correct or justified claim is made by the end of the six (6) month conditional period, the transfer will be made permanent. During the period of a conditional transfer, no further transactions will be recorded concerning this horse, and no breeding of the horse will be recognized.

Notice of conditional transfer will be published on the Association's website. Determination of the existence of an apparently correct or justified claim to challenge the transfer will be made by the Registry Council in its sole discretion. If a conditional transfer is cancelled, the current owner may apply to a court of competent jurisdiction to resolve the issue and order transfer of the registration of the horse to the current owner.

The Registry has issued Conditional Transfers for the following registered American Saddlebreds:
